ABOUT OUR COMPANY

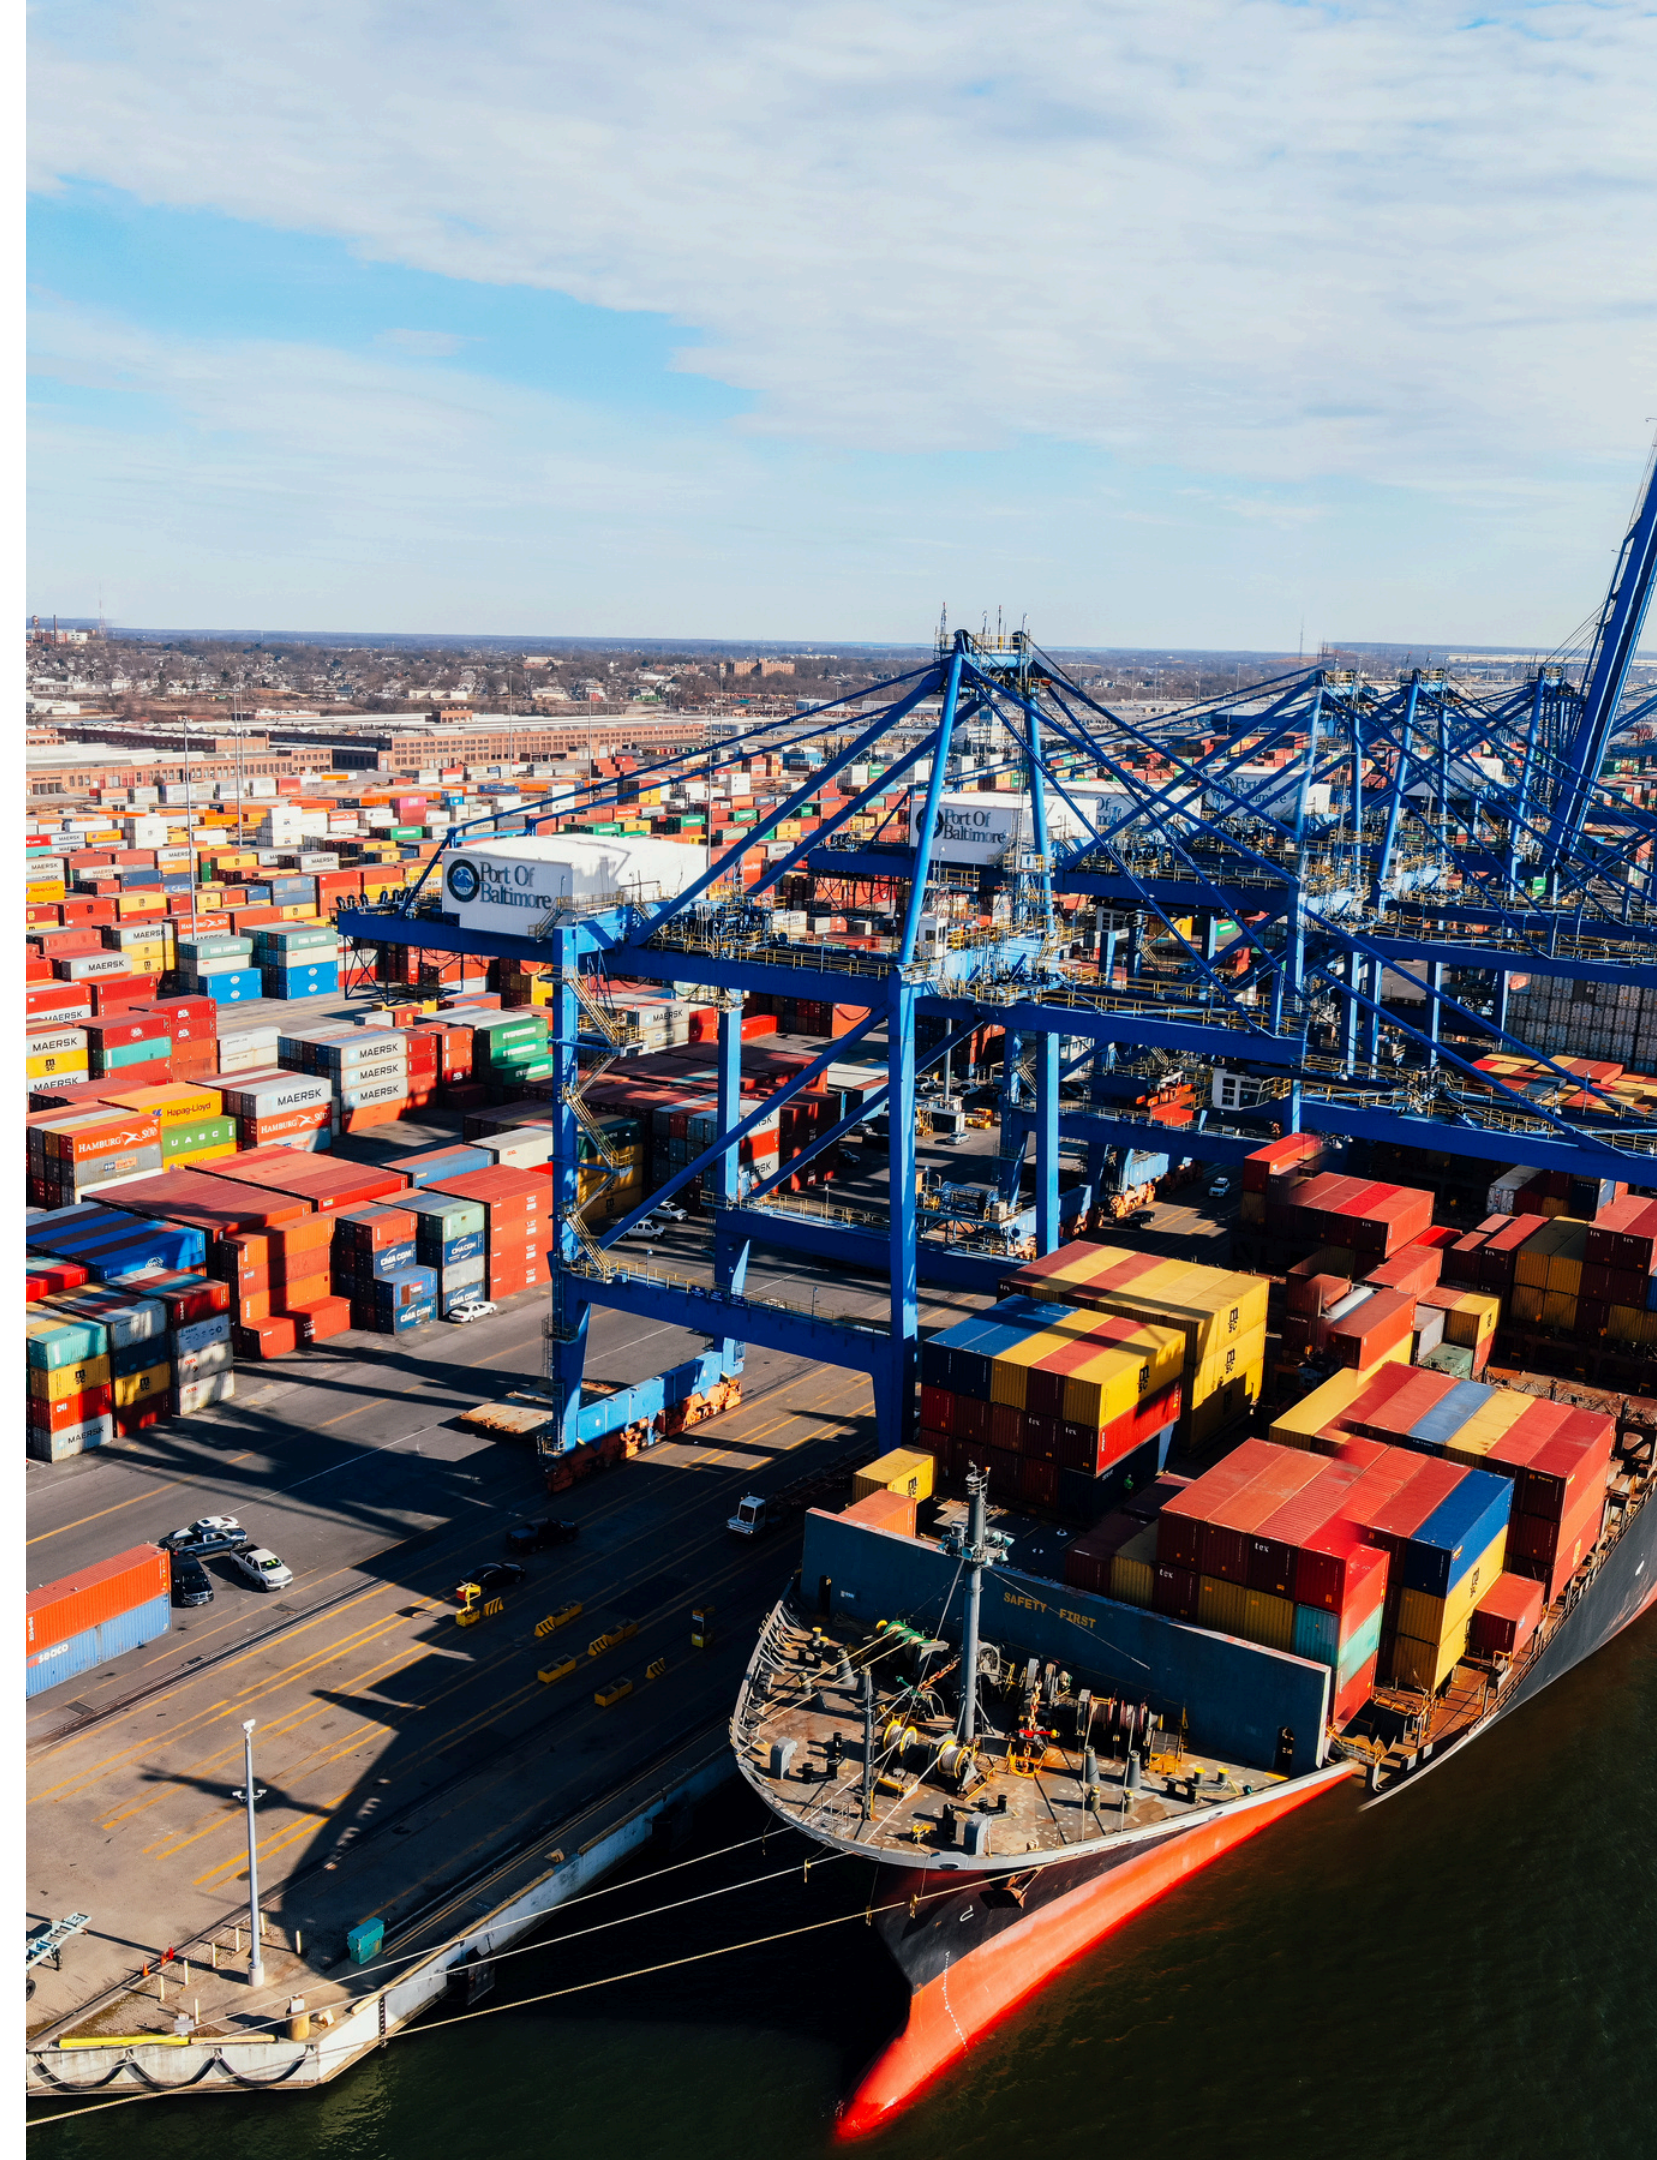

Introduction

Founded in 2016, Shegar Logistics began as a small freight forwarding company with a vision to simplify global trade through efficient logistics solutions.

Over the years, we have grown into a comprehensive logistics provider, expanding our services to include air freight, sea freight, road transport, warehousing, and supply chain management.

Today, we serve clients across various industries, from e-commerce and retail to manufacturing and healthcare, providing tailored logistics solutions that meet their specific needs.

Our commitment to innovation, reliability, and customer satisfaction has made us a trusted partner for businesses looking to optimize their supply chain and expand their global reach.

OUR SERVICE

AIR FREIGHT

Our air freight services offer speed and reliability for time-sensitive shipments. We work with leading airlines to ensure your cargo reaches its destination on schedule.

- Express air freight for urgent deliveries
- Consolidated air freight for cost efficiency
- Charter services for oversized or special cargo
- Door-to-door delivery options
- Customs clearance assistance

SEA FREIGHT

Our sea freight solutions are ideal for large volume shipments where cost-effectiveness is a priority. We offer both FCL (Full Container Load) and LCL (Less than Container Load) options.

- FCL shipping for exclusive use of containers
- LCL shipping for smaller shipments
- Special equipment for oversized cargo
- Refrigerated containers for temperature-sensitive goods
- Port-to-port and door-to-door services

WAREHOUSING

Our warehousing services provide secure storage and efficient distribution for your goods. Our facilities are strategically located to optimize your supply chain.

- Short and long-term storage solutions
- Inventory management systems
- Pick and pack services

Supply Chain Management

A project refers to a sequence of tasks that are carefully planned and executed to achieve a specific objective. Projects are essential in various fields, such as business, engineering, and education, and often require collaboration and resources. Each project has a start and an end, along with defined goals and deliverables. The success of a project is usually determined by how effectively the team meets the objectives within the allocated time and resources.

MISSION & VISION
